

## Glorious Sunday Brunch at JW Marriott Singapore South Beach

JW Marriott Singapore South Beach presents an indulgent Sunday Brunch experience presented by Beach Road Kitchen, every weekend from 12pm to 3pm.

- **Sunday Brunch at Beach Road Kitchen (\$108++/adult, \$54++/child)**

Specially curated by Chef Stefano Di Salvo, the culinary offerings guarantees to appeal to different whims and fancies. Seafood lovers will especially enjoy the wide spread of seafood offerings in the chilled seafood room and charcoal grill. Options are a plenty - imported oysters shucked fresh to order, chilled shellfish like crab, lobster and crayfish on ice, even fresh whole fish like seabass, snapper and other seafood delights like scallops on the half shell, and tiger prawns, barbecued over the charcoal grill to perfection for your enjoyment.

New specials taking centre stage this season include traditional ***Salt-baked Fish*** (a tender fish steamed in a crust of natural sea salt), and ***Roasted Whole Spring***

**Lamb** (which uses a special breed of lamb from New Zealand famed for its delicate flavour), making their debut at Beach Road Kitchen's oven-baked section.

While you are enjoying your brunch, keep a look out too for our *Chef's Pass-Arounds*, sampling plates of off-the-menu dishes not available on the buffet, prepared off-the-cuff in small batches by our chefs. Entirely based on their creativity and the ingredients available, guests can expect different surprises, such as *Suckling Pig "Porchetta" Style*, *Seafood Fregola* or *Salted Egg Softshell Crab* to be trotted out during the brunch service.

Ladies with a sweet tooth will be especially pleased with Beach Road Kitchen's dedicated dessert section with its impressive array of western pastries and cakes, Asian-style desserts, local *nonya kueh*, and a live station for fresh waffles and crepes served with a variety of sauces, sweet condiments and ice cream. Kids too will be especially thrilled with our candy wall display, featuring a selection of sweets, gummies and marshmallow that they can help themselves to.
